

FULLY CUSTOMIZABLE FABRIC MASKS

- > Washable and waterproof, non-sterile, customizable with images, logos and colors of your company or business.
- > Available in 3 sizes: adult, child 10 years, child 5 years.
- > Quantity in multiples of 10 pcs.
- > Composition: triple layer of fabric, soft elastic with plastic adjuster.
- > Fabric type: external layer 100% polyester with WR treatment, intermediate layer TNT, internal layer 100% cotton.
- > The WATER REPELLENCE treatment is performed on the fabric. After each wash, it is advisable to iron the straight side at a temperature not lower than 150 ° in order to maintain the water-repellent performances.

INTENDED USE: The mask is intended for exclusive use by the community ex art. 16, par. 2, L.D. 18/2020. It cannot be used in healthcare and / or as PPE. The use of the mask must always be combined with other prevention / personal and respiratory hygiene actions, as well as with the provisions on social distancing and the other precautionary rules relating to the Covid-19 emergency.

PLEASE NOTE: This mask is not a medical device nor an individual protection device; can be produced pursuant to art. 16, par. 2, of the L.D. 18/2020, under the responsibility of the manufacturer who must in any case guarantee the safety of the product (by way of example only: that the materials used are not known to cause irritation or any other harmful effect on health, are not highly flammable, etc.). For these masks there is no evaluation of the Istituto Superiore di Sanità and INAIL. The masks in question cannot be used in a hospital or care environment as they do not have the technical requirements of medical devices and personal protective equipment. The wearer must however respect the precautionary rules on social distancing and the other ones introduced to face the Covid-19 emergency.
